**Glebeland Primary School**  
Weekly Newsletter

Issue 42 21<sup>st</sup> January 2022

## Welcome

Welcome families

It is such a privilege to see the learning of our children and such a pleasure to see children talking so proudly of their achievements. The highlight of every week is our celebration assembly where the hard work of our children is shared across the school. It's such a positive end to our week at Glebeland. We can never underestimate the positive impact of being in school has on our children.

I wish you a lovely weekend,  
Mrs Scott

## This Week's Awards

### STAR OF THE WEEK

Sophia W for her amazing drawings  
Odin for super effort and working independently  
Clemence for trying really hard on her fractions work  
William L for working hard to make the right choices

### CITIZEN OF THE WEEK

George for always trying his best with his writing  
Sonnie for always being positive and enthusiastic  
Mia CI for such a positive attitude towards her work  
Nancy for being a role model during carpet sessions

Well done to all of them

## ODL and PE

Please can we remind you that ODL and, weather permitting, PE lessons take place outside so please could the children have lots of warm layers for PE and hats, gloves and scarves for ODL. Some of the children were very cold yesterday.

## Learning Pi

Attached to this week's Newsletter there is a letter from Mr Huxtable at Barnby introducing a new learning platform called Learning pi. You should all have received an email from Learning Pi in October with details of how to log in to this. Unfortunately there were complications with setting this up so this wasn't sent. Mr Huxtable has sent this message which should hopefully help to sort this out for you.

'If you are unable to log in to Learning Pi, please visit <https://learningpi.org/forgot-password> and enter the email address that you have associated with your Arbor account. As you have already been signed up, Learning Pi will have your details on record and create a new way for you to log in and access the children's activities. We are all looking forward to how the children tackle these activities.'

## This Week in Class

### Woodpecker Class

The children in Woodpecker class have been learning to share in Maths this week. Next week they will be looking at the division symbol.

## Robin Class

This week we have been trying to answer our big question "where on earth are we?". Mrs Ives visited us and told us about the history of our school and that although our address is Toft Monks the border line with Haddiscoe actually runs through our playground, so we can be in two places at once! We then looked at Google maps and saw our houses and drew maps of our journeys to school. Next week we are going to begin thinking about the differences between a village, town and city.

## Red Kite Class

Our computing topic this term is looking at how we can use code to create our own learning games. We have started the unit by exploring the different functions on the website and by creating 'sprites' that can move and change on command. Please ask your children to explain the tabs in the picture or visit <https://scratch.mit.edu/> to have a go at home.
