Message from Mrs Scott

Welcome,

We are getting very excited as we prepare for our Jubilee celebrations next week. We are really looking forward to welcoming you so we can join in the celebrations together. The staff team has been working busily to get everything prepared. Let's hope the weather holds out and blesses us with glorious sunshine!

Best wishes,
Mrs Scott

Message from Mrs Barnard

Across Borders we have an Inclusive approach to supporting our pupils to learn and this means adapting our provision to find the way that they learn best. We have introduced standing tables for some pupils and the feedback has been very positive. The tables enable pupils to engage in learning whilst fulfilling the need to move and develop strength in muscles.

Sunhats and Suncream

The sun seems to have deserted us to day, but please could I remind you to send a sunhat and sun cream in with your child on sunny days. If you feel your child is too young to apply their own cream could you make sure some is applied before they come in to school as the staff are unfortunately no longer allowed to do this.

End of Year Production

The children in Red Kites are currently working on an end of year production – 'Jill and Fred's Most Hysterical Historical Adventure.' It is a journey through history and some of you may recognise similarities to the classic film 'Bill & Ted's Most Excellent Adventure' 😊. They will be performing their dress rehearsal to all of the school on Wednesday 6th July followed by two further performances for friends and family on Thursday 7th July at 2 pm and 5:30 pm. Details of how you can order tickets will follow nearer the time.

Also The Year 6 pupils will be having a Leavers' Camp Out on Friday 15th to Saturday 16th July. Further details of this will follow.

This week's Awards

Star of the Week

Torben for working really hard on his handwriting
Jack Sh for always working hard and asking questions
Jasmine for a positive attitude and focus in SATs and for sharing with others
Jess S excellent Maths work on angles

Citizen of the Week

Sophia for a can-do approach to new challenges
William H-P for working hard at following instructions
Beorn for his dedication to showing excellence in his learning
Aurelia for always looking to help the whole school community

Red Kite Class

Red Kites have been lucky enough to get First Aid training as part of their PSHE curriculum. Claire Ward and Avin Varghese from the James Paget Hospital came into our class with props, to help us to learn about what we can do to help in an emergency. We would like to thank them so much for giving their time to come in to class. It was a fun and informative morning.

Woodpeckers

Woodpecker class have been using their Art skills to create the fire background to their final masterpieces. They used tone and shade techniques for colour mixing to achieve the right colour for the fire and smoke.

Starlings

In History this week Starlings have been designing our own Anglo Saxon villages. We have drawn maps and have been careful to include all the essential components that our villagers would need. We have included forests for fuel, farms to grow food, rivers for water and houses for shelter.

Robins

Robins have been learning about the artist Arcimboldo who made faces from fruit and in Maths we have been learning about using shapes for purpose. We completed this work by making faces from fruit including avocado and mango which the children said they had not tried before but which are in their Talk for Writing text, Handa's surprise. We carefully used knives to cut and shape our fruit and thought about the best shapes and sizes to make the features of our portraits. We then enjoyed eating our faces and discussing the tastes and textures of each fruit.
